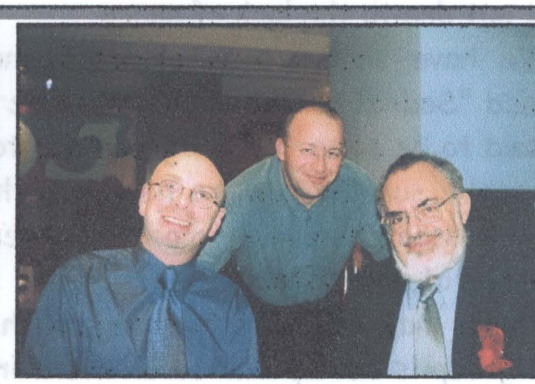
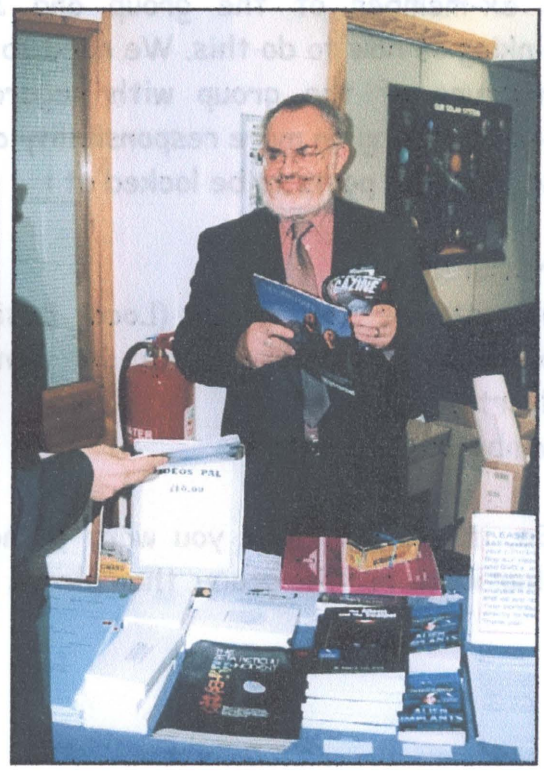
LEEDS 2002





Front Cover... Images taken at the 2002—21st Leeds Conference organised by UFO Magazine. Photographs feature Dr. Roger Leir, Graham Birdsall, Stanton T. Friedman, Steve Rider (SUFOG) and Russel Callaghan. (Photos copyrighted ©SUFOG2002).

Editors Corner...

Well folks another 2 months go buy and Christmas and the New Year came and went... I hope that you all had a great time and that 2006 brings you riches and happiness.

SUFOG started 2006 with some great press coverage (see page 6) and yet more photographs taken by 'George' in Portsmouth (See page 3). Lots of items packed into the magazine this issue and many items left out due to the lack of space.

We have seen a new planet found beyond Pluto named "Sedna" or the technical name '2003 VB12'. It is said to be some -250 degrees due to it being so far from the sun. So now we have a 10th planet in OUR solar system, how many more are there on the outer reaches of our system?

Things may well have to change with regards to how the group is set up due to a recent incident involving an ex-member of the group and I am currently thinking of how to do this. We need to just look at the structure of the group with regards to members possibly taking on more responsibility and also we need the following posts to be looked at :

Treasurer...
Publicist for the group (Local basis I.e. posters, libraries, local advertising in general, Magazine adverts)...
Membership secretary...

So, if you feel that you want to help or have any other ideas for the group, then please let me know.

Steve Gerrard...

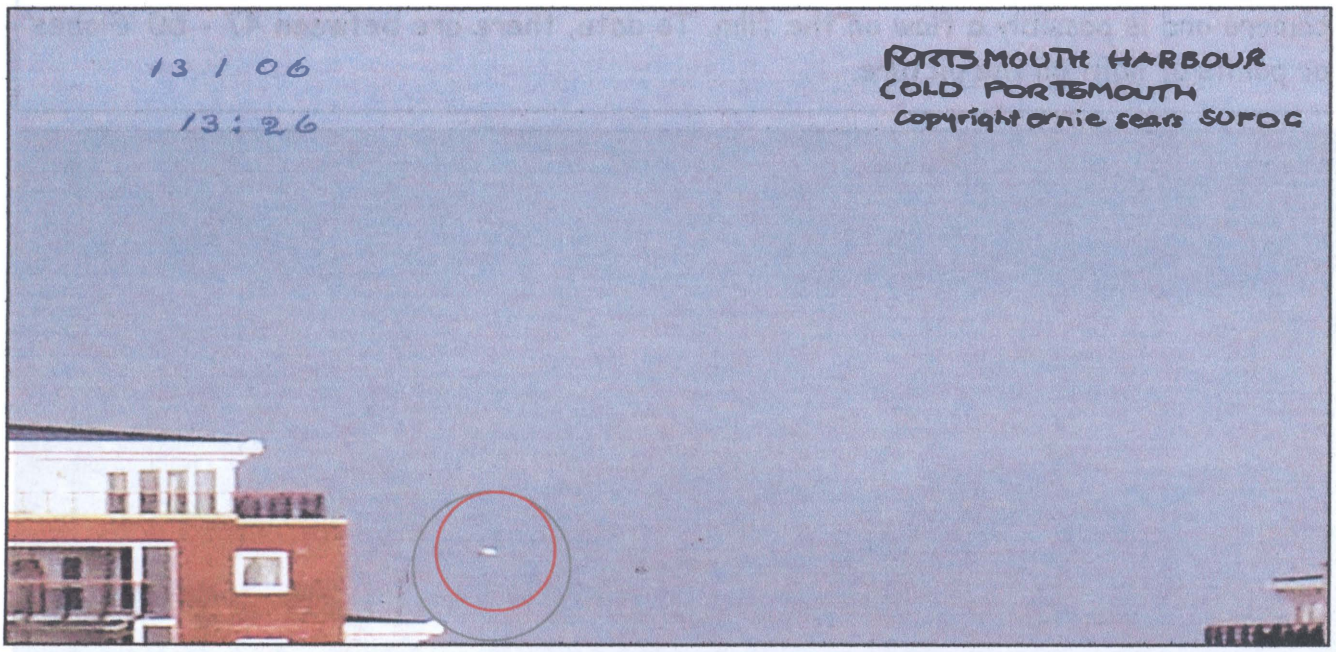
More photographs taken by 'George'...



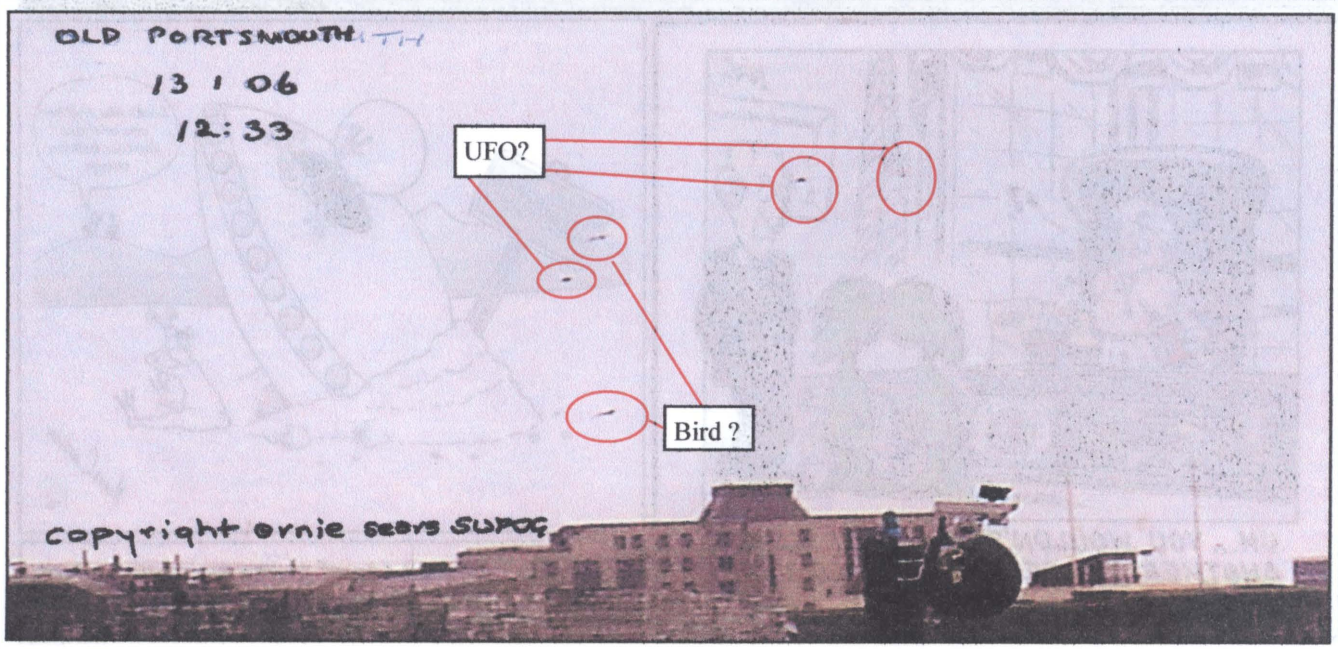


Photo taken by PRO Ernie Sears on the 21st January 2006 whilst standing next to 'George' who did not photograph the same 'Objects'. This was taken using an instamatic camera and is possibly a flaw on the film. To date, there are between 47 - 50 'Globes' or points of light on the picture.

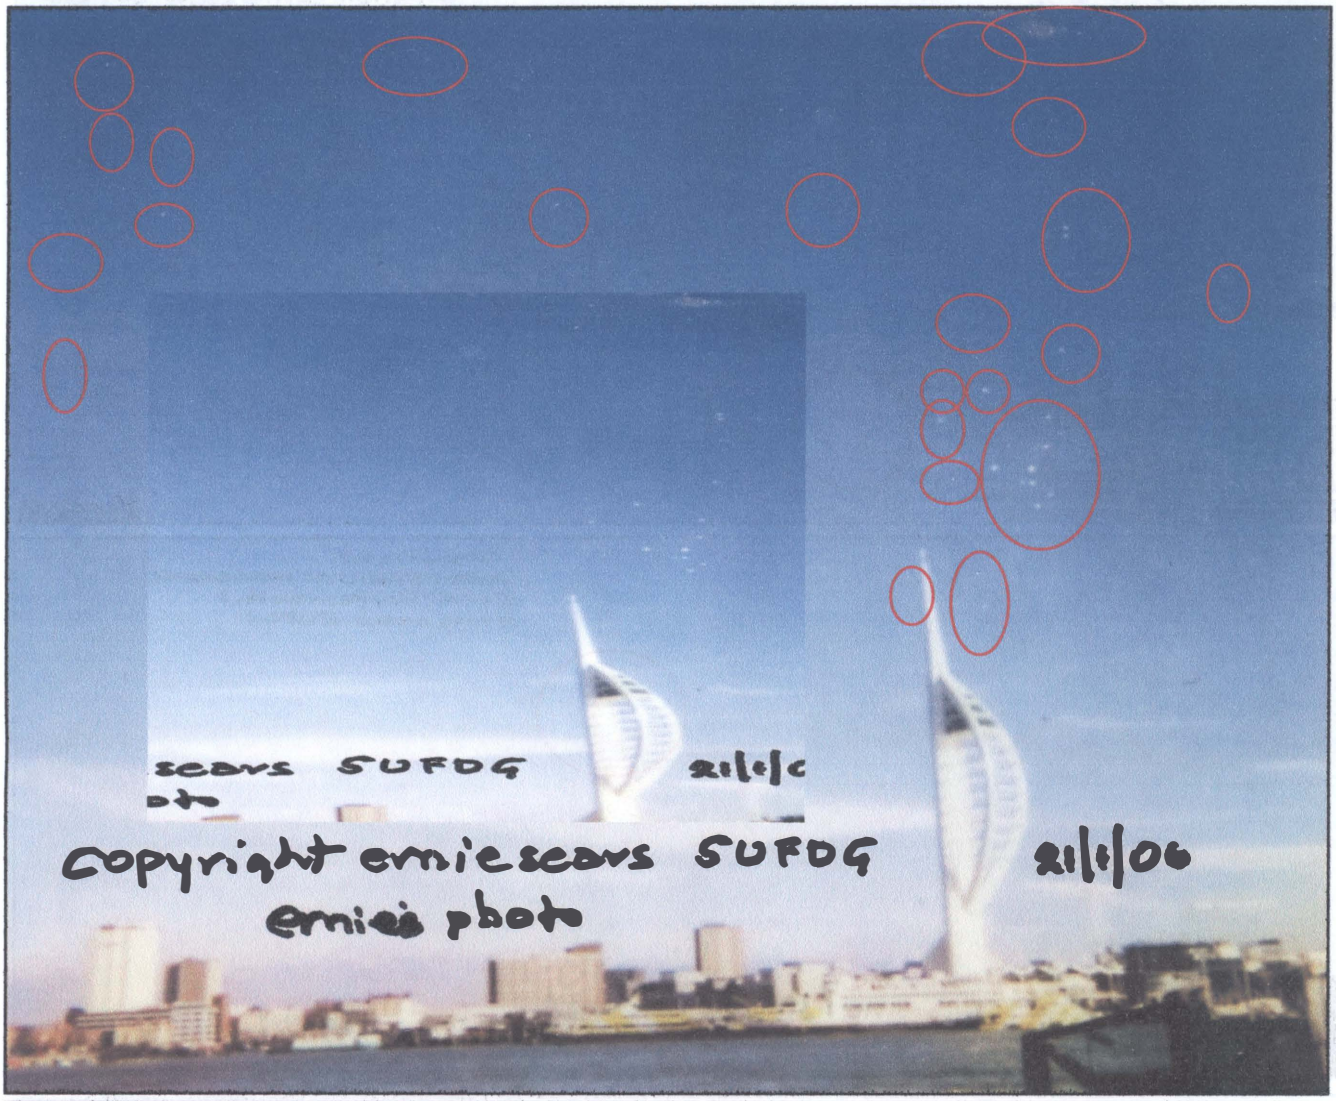
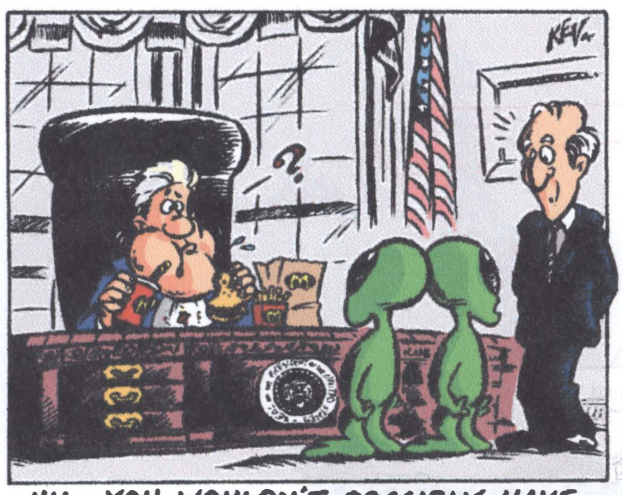
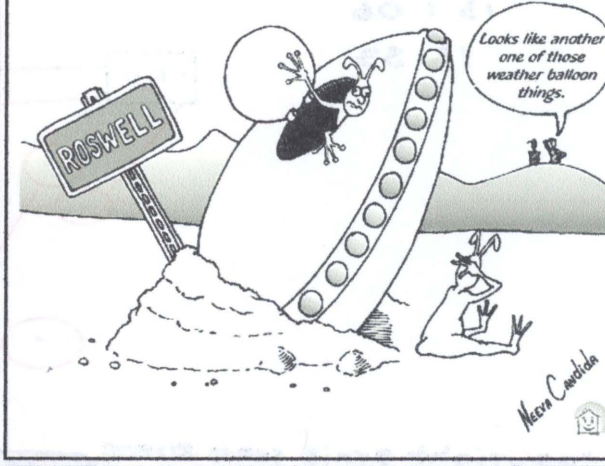




UH... YOU WOULDN'T POSSIBLY HAVE ANOTHER LEADER YOU COULD TAKE US TO, WOULD YOU?



Looks like another one of those weather balloon things!

Peterborough Today - 18th January 2006. Invention: Flying Saucer Is Out Of This World.

There are some strange goings-on in a small Peterborough workshop.

Mysterious flying saucers seen around the city have pricked the curiosity of secretive US defence officials.

A group of dedicated space enthusiasts at GFS Projects Limited - which stands for Geoff's Flying Saucer - have been tinkering away with some alien designs in their own Area 51 in Saxon Road.

For six years, Geoff Hatton and his team have worked tirelessly to take a giant leap into the unknown and created six realistic flying saucers.

And now the uniqueness of the machines, which can take off vertically, fly, hover and land, has attracted the imagination of the American officials who went to see if the truth really was out there.

Like a scene from the X-Files, the men in black flew across the Atlantic to check out the UFOs and see if the truth really is out there.

But what the US officials want with the mysterious machines remains Top Secret. Geoff, of Eastfield Road, Peterborough, who was celebrating his 67th birthday on Monday, said: "It is extremely pleasing to have anything you do recognised by other people.

"It was an exploratory meeting set up by a third party. After the meetings I had the impression they were pleased with what they had seen. We will just have to wait. I have no idea what they want them for."

UFO-spotter thinks Spinnaker Tower has become an alien tourist spot

A UFO spotter is convinced aliens have been hovering near Portsmouth's newest tourist attraction.

Ernie Sears believes an alien craft has been drawn to the tower out of curiosity – but he has been told it's more likely to have been a plane.

Mr Sears said: 'We can only speculate but I think the Spinnaker Tower may be attracting curiosity from alien life.

'They want to know why it has been erected and what it can do for them.'

Mr Sears, 81, said he was told by a Gosport resident that the bright, cigar-shaped object remained in the sky for a few minutes before vanishing.

Mr Sears, of Rotary Court, Netley Abbey, said: 'It was a cigar shape, rounded at both ends, glowing and has several black globes around it.'

It is the second UFO sighting in the area reported in *The News* in recent months.

In September, we revealed how Martin Pragnell, 38, was amazed to capture a picture of a strange object in the sky as he was trying out his new digital camera in the garden at his home in Priddy's Hard, Gosport.

And Mr Sears, who runs the Southampton UFO Group, said there had been about eight or nine UFO sightings over Portsmouth Harbour in the past few months.

It is a significant rise in the number of south coast sightings reported to the society, which also investigates other paranormal phenomena, such as crop circles and ghosts.

THE WEEKLY NEWS
January 21, 2006

ERNIE TELLS OF HIS CLOSE ENCOUNTER WITH LITTLE BLUE CREATURES ON BOARD UFO

I WAS ABDUCTED BY ALIENS

The Weekly News, January 21, 2006.

LIFE ON OTHER PLANETS?

You'd better believe it!

Ernie Sears.

These mysterious UFO-like objects at Portsmouth Harbour were captured on film by a member of the Southampton UFO Group. But Ernie claims to have been taken aboard a similar alien aircraft.

by Jeremiah Ware

THE truth may be out there, but Ernie Sears still hasn't discovered what that is yet, despite his numerous extra-terrestrial experiences.

He claims to have witnessed a dozen unexplained sightings, an alleged military cover-up, and even openly declares that he's been abducted himself.

The sprightly 81-year-old is also the main spokesman for the Southampton UFO Group, a band of spotters who like to investigate UFO sightings.

Disappeared

When Ernie saw his first UFO, back in 1960, he didn't realise it was going to change his life.

He revealed to *The Weekly News*: "I was an insurance agent and was just doing my rounds in Gosport one cold morning, when I saw a shining object glinting in the sky over the Admiralty Surface Weapons Establishment, which is nearby.

"I thought it was just a plane, so didn't worry about it, but then I heard the sound of approaching air force jets which came flying towards the object.

"As they got closer, it turned away, and just disappeared!

"When I got home, I phoned the air base to find out what the object was, and their reply is something I'll never forget.

"They said, 'Sir, you didn't see any jets and you didn't see any object'.

Ernie added, "The authorities have been denying things like that for years. They like to keep a tight lid on it, mainly because aliens could be a threat to our defences.

"But I wanted to learn more, so I read lots of books on the subject and joined a UFO club."

However, it wasn't until 17 years later that Ernie came into contact with extra-terrestrials again.

"I was putting the cats out when I saw a triangle of light floating in the sky," he said.

A close-up of the object with the crane in the foreground.

'Sir, you didn't see any jets and you didn't see any object'

"It was totally silent, and looked metallic. But, when I turned my head, it simply vanished."

A year later, the sightings came thick and fast, and Ernie had his most-bizarre encounter ever.

"Again, I was out in my garden at night, when this black object came over the top of me," explained Ernie.

"This one had a faint, low humming noise and lights around the edges, then it disappeared over the top of the row of houses.

"It returned the following night but, although I was ready with a camera, none of the pictures came out well.

"But this second time, one of the lights flashed down and hit me. In the next instant, I felt like I was in the solar system, looking past Mars and the other planets.

"I can only remember going to the UFO and back, but not what actually happened onboard.

"I remember seeing lots of little, blue aliens that were quite tubby creatures, and certainly not frightening.

"They took me into the ship which didn't have doors, but was entered through this jelly-like substance. They were being watched over by a grey alien with big eyes and sloping face.

"It felt very real.

Encounter

"I have to accept the fact that I believe I've been abducted, I have a scar on my wrist that I can't remember ever occurring.

"I also remember having a vision of seeing big tanks like test tubes holding hybrid alien/humans that were growing.

"I can only explain these things as I remember them," said Ernie. "I don't know what it all means, and it really doesn't bother me if people don't believe me.

"I DO believe it and, when you have a one-to-one encounter like I have, it's very convincing.

"When it happens, you become more aware of a great, big, awesome situation in advance of us — both spiritually and scientifically.

"As these pictures here show, there's something in the air that's obviously alien."

Ernie Sears conducts illustrated lectures for a fee and can be contacted on 023 804 56000, or www.sufog.freeserve.co.uk

UFO HUNTER CLAIMS THERE'S BEEN A GREAT MILITARY COVER-UP

The hub-cap like machines look like they've been lifted from a '50s B-movie. They glide gracefully through the air using the Coanda principle, which involves jets of nozzled air being attracted to a nearby curved surfaces.

To date, all the prototypes have been battery-powered, but GFS believe larger versions could have proper internal combustion engines. Geoff, who first came up with the plans for the saucers while sitting on his dining room table, added: "We are the only company in the world doing this sort of thing. The future is shaping up to be very promising indeed." Shane Miller (24), of Parnwell, Peterborough, is the youngest member of the team. He said: "When I first saw the saucers when I started last August, I simply said 'wow'." The team are not relying on the outcome of the visit from the American government - as the company is constantly dreaming up new ways of marketing the saucers. They believe the flying saucers can be adapted as toys, to aid mountain rescues, land mine detection and even as a state-of-the-art scarecrows. To set the ball rolling, the company secured a £43,000 SMART grant from the Department of Trade and Industry and equity funding from a group of investors. The saucers range from 10ins to three feet in diameter.

'Four dull lights' seen over city

LAST year, a UFO enthusiast planned to use the Freedom of Information Act to access previously secret Government documents to explain sightings of flying objects around Peterborough. Michael Hoffman, of Bruces Close, Conington, near Peterborough, who runs the UFO research group Sky Lights, hopes that the release of so-called "X files" held by the Ministry of Defence (MoD) will finally shed light on why there have been so many alien sightings in the area. He said: "I think the Act will give us quite a lot of information about UFOs, and it is something our group will definitely use." The MoD recently released secret papers under the Act showing that 91 sightings were recorded last year in the UK, including a report of "four dull red lights" hovering above Peterborough.

SUFOG DIARY - 2006..

March: Rods.

April: Paranormal Evening: Hampshire Ghosts.

May: Real UFOs
and
UFOs, Lies and the Cold War.

June: Group member moment...

UFO Sighting Claim - Watch The Video..

A Crosland Moor woman has captured images of a strange object in the skies above Huddersfield. Now she is hoping someone can identify the object, which she saw on Monday afternoon.

Teresa Millward, 28, of Crosland Moor, said: "It was very strange and slow-moving. It was shaped a bit like a triangle. "I watched it travelling into the distance over the town, then it returned and seemed to move sideways." She added: "I thought it was a hang glider or a balloon, but when it came closer I could see it was neither of those things."

Teresa photographed the UFO using a digital camera and recorded its movements on video. Teresa, who is in a wheelchair while recovering from an accident on holiday in New Zealand, described the sighting as "very unnerving". She said: "I am not a believer in UFOs, but I have no idea

what this was.

"I thought I must be hallucinating, until I saw some people outside stopping and pointing at it." Several Examiner readers reported UFO sightings over Christmas last year. What do you think? Click here to watch the video: http://tinyurl.com/7pbs6

BBC News - 27 December 2005...

UFO Enthusiasts Gather In Forest..

More than 100 people are expected to gather in a Suffolk forest on Tuesday night to mark 25 years since a famous UFO sighting.

During the nights of 26 and 27 December 1980, US servicemen at RAF Woodbridge and Bentwaters reported mysterious lights in Rendlesham Forest.

The strange lights included a glowing metallic triangle and a hovering object with red and blue lights.

UFO enthusiasts are hoping there might be more sightings during the night.

Brenda Butler, a local resident who has written about the events of 1980, believes the sightings of 25 years ago were real.

Patrol car lights...

"People who were coming up the Butley Road and who were in Woodbridge, Melton, Leiston and all around the area saw structured craft," she said.

"And that's not the first time - we can go way back to the 1600s and we've had lights in the sky and in the forest." In 2003, Kevin Conde, a former US security policeman said he had been responsible for the lights in the forest.

He said he and another airman shined patrol car lights through the trees and made noises on a loudspeaker as a prank. "We just drove through the forest flashing the lights through the fog," he said.

Despite Mr Conde's claim, some witnesses do not believe they saw patrol car lights in Rendlesham Forest.

US Air Force Sergeant John Burroughs said: "The blue lights coming down from the sky... I still have never heard of any technology capable of doing what I saw happening."

The Lincolnshire Echo : 05 January 2006...

Are Aliens Watching Us?

Spooked residents claim to have seen alien spaceships hovering over Lincolnshire.

Two groups of people, who have all denied being under the influence of alcohol or drugs, said they saw the UFOs on December 30 and 31.

They both claim that glowing objects hovered over them for a few seconds and then silently disappeared.

No official radar records exist for the dates in question as RAF Waddington's air traffic control centre was closed.

And the police say that they have received no reports of other sightings.

But Beth Clarkson (58), of Dene Close, Skellingthorpe, is convinced that she saw a UFO. She was at a caravan convention at the Memorial Hall in Wellingore when it happened.

"It was about 5pm on Saturday. I was fetching some water for the van with another man when he just gasped and pointed to the sky. There was this orange cone shaped object burning in the sky. It hovered for a while and then headed off towards Waddington. There was no sound, it was really eerie." Mum Sandy Gregory of St Peter's Avenue, Boultham, Lincoln, had a similar experience the next day. "My family and neighbours were stood out front at about midday and the strangest thing flew past at about tree height. It was like a plate with a flame on it and it was going at about 20mph," she said. "Then it flew over Boultham Park and went towards the city. We don't know what it was - and no we weren't drunk."

In May last year the Echo used the Freedom of Information Act to access information on UFO sightings across the county. Documents revealed that six unidentified flying objects had been reported in Lincolnshire's skies over the past five years. Flight Lieutenant Roger Steel, who works in air traffic control at RAF Waddington, said: "We only started operating the radar again yesterday and it was out of action from December 21 for Christmas so we have no records to check whether we picked anything up or not. "There are a number of possible conventional explanations. "Obviously it could be aircraft. Since the opening of the new Robin Hood airport there's been a lot more activity. And there is also the possibility of the Humberside Police helicopter. This uses a powerful search light that creates a column of light. And the sound of the helicopter can often be blown away if there is a stiff breeze."

Lincolnshire Police spokesman Tony Diggins said the force had received no UFO sighting reports over the festive season. "And to our knowledge the Humberside chopper was not out."

In the know Under the Freedom of Information Act the Echo received details of all official UFO sightings reported to the military over the past five years.

The records show six sightings involving seven objects reported to personnel in the county. All of the sightings were made by residents or motorists who claimed to have seen unexplained objects. But no reports explaining the sightings or showing the results of further investigations into their authenticity have been released. The sightings include reports of objects shaped like triangles, torpedoes or even cylinders. Others were recorded as "glowing" and "lights" in the night sky. The objects were reported to hover in the air, move silently, race across the sky and even spin. One "speeding light" was said to have "turned 180 degrees back on itself instantaneously".

Another was reported to have hovered in the air before it "shot off creating a blue and white light some 30ft long". In November 2001 a resident of Gonerby, Grantham, reported that his house had started to shake and had experienced a power cut when a "glowing object" appeared over it. MoD records report the caller seeing what "looked like a missile" moving very fast. "Caller believes it could not have been an aircraft as it did not have wings," read the report. At the time the RAF reported no flights in the area.

NEWSPAPER REVIEWS BY ERNIE SEARS.

Almost no media cuttings this time with the Portsmouth News doing a headlined item that had an excerpt from a reporters fertile brain calling yours truly a `UFO spotter who believes the aliens are attracted by the famous Spinnaker as a tourist must visit`.. or words to that effect! Original mislaid. Still, they also told us that it all lends belief to the increased number of sightings in the South lately, notably the gent with a new camera catching an Adamski type craft in the vicinity of Portsmouth fairly recently, the NEWS published it, but no mention of our SUFOG photographer George's amazing and continuing... so far!...photos.

The widely read **WEEKLY NEWS** (See Page 6)... did us proud, however, with a front Page and inside almost full page of it's 21st January issue, featuring yours truly following their sixty minute phone interview earlier. Pretty accurate apart from a mixture of my abductions etc that lost intervals so might have looked non-stop since the three in January 1978! An apology from Jeremiah of the paper which I'm taking up in a possible follow up using the latest photos over Portsmouth Harbour. (NO! I DIDN'T GET PAID! Do we ever? I got a free Weekly News however and bought, Locally, a handful, so watch out! Several readers phoned, from Aberdeenshire, Cumbria, Derbyshire, and even Northern Ireland, with their own encounters and questions...another, unknown, just asked `is it true?` Two, so far, have asked for membership forms, which have been despatched along with photo-copies of George's photos.

Must not forget a big thanks to our local "freebie" Advertiser.

Confused PRO and Chairman?...

On Friday 4th February I received a phone call from Ellie Tennent about the Portsmouth UFO sightings. She wanted to do a short item in the newspaper *VISTA* - a newspaper of the Landscape Institute. I was happy to furnish her with some details and I asked how she had hear about this. She said that she had seen it in the 'The Metro'. Not aware of this, she said that she had the article and was happy to send it to me. On Saturday the 5th I received the article and after speaking to our PRO - Ernie Sears, we agreed that this was a somewhat a journalistic licence... I have reproduced the complete article...

THE LONDON 'METRO' UNDERGROUND NEWSPAPER... - 19th January 2006... Aliens 'visiting millennium tower'... REPORTED sightings of alien craft have brought tourists and UFO watchers flocking to a millennium tower. Residents claim to have seen a cigar-shaped flashing object hover over the Spinnaker Tower in Portsmouth. UFO spotters believe the 170m building is attracting attention from alien life...

Well, SUFOG have not spoken to the newspaper about this and the only press coverage was the Weekly News article published on the same day?

THE TIMES... 3rd February 2006.. **Anybody Out There?**... Dr. Rene Oudmaijer, from Leeds University's School of Physics & Astronomy, and one

of Britain's foremost thinkers in the field, says that the chances of finding aliens by the end of the century have "increased dramatically" thanks to a wave of new telescope launches due soon. Book your space flight now.

GUARDIAN (The) 6th February... US Serial Number Gives Clue To Mystery Of The Alien In The Attic...

When Barney Broom began renovating his cottage he did not expect to be confronted by a pair of black eyes staring from a cloudy jar.

But the mysterious discovery of an alien in his attic has spooked the 54-year-old screenwriter and bewildered extraterrestrial experts, who yesterday suggested the US military could be involved.

The delicate 30cm (12 inch) figure of a baby alien is stored in a pungent liquid and has a US serial number painted on its four-toed foot. Possibly sculpted from a clay-like substance and painted grey, the model closely resembles the aliens depicted in a hoax film of an autopsy of the infamous "Roswell incident".

Curiously, the alien was discovered stored in an old toffee jar wrapped in a copy of the Daily Mirror dating from October 1947. In July of that year, officials at the American air base of Roswell reported and then denied finding the remains of a flying saucer. The Roswell incident sparked a popular fascination with UFOs and led the US air force to collect data on sightings.

One theory is that the alien was left in the loft by a US serviceman working at a nearby US air base. Mr Broom's two-bedroom cottage at Gunthorpe, north Norfolk, which he bought eight months ago, is 45 miles from two large US air bases at RAF Lakenheath and RAF Mildenhall. Many US servicemen and women live and work in the region.

Mr Broom told the Guardian he was "a bit spooked" by the discovery but said he was not yet living in fear of being beamed up by aliens.

"It was stuffed in the corner of the loft with other old newspapers. Before me, an old spinster lived in the house. I don't think anybody had been up there for years. I haven't got three heads and I'm not the sort of eccentric lunatic to think it's an alien but it's a funny thing to find in your loft."

Mr Broom reported his finding to the Sci Fi Channel, who called in Professor Adam Roberts, an expert in science fiction literature, to examine the creature.

"The easy thing to do is dismiss it all and say it's a hoax. It may be or may not be," said Prof Roberts. "The fact that it was found near a US air base suggests there may be a military component to it."

A spokeswoman for the US air force said it had never made such models of an alien, the figure was not government property and the serial number could mean it had been catalogued by a museum. "It's a hoax," the spokeswoman said.

Prof Roberts admitted it could be a film prop dating from the 1960s, but said he was not surprised at US denials: "That is the US air force line. They deny these alien encounters. It is quite possible they concoct stories to cover up for more nefarious activities."

The Sci Fi Channel will this week broadcast live footage of the alien on its website. After further tests, Mr Broom will put it on his mantelpiece.

A Vintage UFO Case...

Gulf Breeze and Ed Walters...

On November 11, 1987, Edward Walters, a local building contractor, was working late when he noticed a light outside of his window. Peering out, he saw a glowing object partially hidden by the 30 foot pine tree growing in his front yard. Ed went outside to investigate and was afforded a much better, if not stunning view of the unworldly object. He described seeing a top-shaped craft with a row of dark squares with smaller "portals" between them. The object, with its bright, luminous ring around the bottom, hovered slightly above the road. He quickly returned to his house and grabbed his Polaroid camera. Walters took several pictures from his front yard and decided to go into the street for a better view. While standing in the street the object began hovering directly above him. Walters claims that a bright blue "beam of light" shot out of the craft, stunning him as it raised him several feet off of the ground. He heard a voice exclaim "Don't worry, we will not harm you". He then described seeing images of "dogs" flashing in his head "just as if they were turning the pages of a book". He then awoke and the UFO was gone.

Sceptics still doubted Walters claims and on February 18, 1988 and February 23, 1988, Ed was given two polygraph tests by Harvey W. McLaughlin Jr. He was also given a battery of psychological tests by Florida clinical psychologist, Dan Overlade. Walters passed the polygraph tests and the psychological profile indicated no personality abnormalities.

A model spaceship resembling the UFOs reportedly seen above Gulf Breeze has been found in a house once occupied by the man whose photographs started a UFO craze that has focused worldwide attention on this community.

Hampshire Sightings:

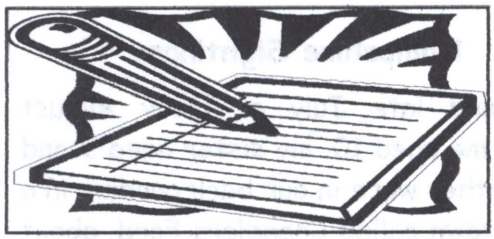
Around late July or Early August 1967, me aged 10, my sister aged 9 and my mother were in our back garden, in a small town called Chandlers Ford, about 10 miles from Southampton, in the South of England.

We all noticed a silver disk, just hovering in the sky, it was there for around 40 minutes, not moving, then it slowly started to descend, my sister and I noticed it was approaching the ground, no more than a mile from our location, and being children, immediately decided to go and investigate.

We crossed 2 roads, and headed for open fields, where we believed the disk had landed, upon crossing the field, we entered a small wooded area, not very large, perhaps 200 meters wide, as we came out of the other side of the wooded area, right in front of us, no more than 10 feet in front of us was a silver disk craft, just hovering around 10 feet of the ground.

The next thing I remember, its much darker now, the sun has gone, and the craft is still just hovering in front of me, it slowly starts to rise into the sky, at around 60 feet above me, the craft became very bright then went straight up, within a second or so, it became like a small star, a tiny dot in the sky, then it was gone. This craft clearly went straight into space, and made the journey from 50 feet, to orbit in under 2 seconds, it was a very clear night sky.

I then looked down at my feet, there was a circle in the crops, only a few feet in front of me, it was perfectly round, about 40 feet across, there were no tracks to the circle or within the circle, it was not there the day before. **(Early Hampshire Crop Circle?)**



MAGAZINE REVIEWS BY ERNIE SEARS.

Not a lot this time but interesting on most counts.

UFO DATA Report No 1 says the front cover of the Jan/Feb issue.... illustrated with an apparent Flying Triangle against something or other in pink...maybe the 47 pages inside will clarify. Russel Callaghan`s the editor of the aimed at the public, and ,as he says, it gives us the choice of a printed magazine or the www.ufodata.co.uk website at £2.95, inc. P&P UK... if that looks confusing...modern technology still is to me!....it says 'available exclusively via the ufodata website` but helpfully gives an address; UFO Data, PO Box 280, Leeds LS26 1AN, Tel; 07957 223358. Features Editor the well known Phillip Mantle, Contributor Steve Johnson.

OK...looks promising, a little work on those paperclips would save some of the words on certain pages.. but heigh ho, early days. Contents listed as "Future Wars fought in space". "NASA's Fallen Star", (a free CD Rom going here) "Walter Haut, a personal tribute", "The Stuff of Legends", and "Rendelsham". For a pocket sized magazine there's a hell of a lot of interesting material packed into it which I'm gonna get stuck into partly 'cos some of it...the photo on page 35 for instance.... has close resemblance to one of the Portsmouth Harbour phenomenal sightings, including it's sudden appearance and disappearance! (See my article) Our own Steve Gerrard is a speaker at the Probe International UK conference, by the way, as per the UFO DATA, March 24th to 26th. All details via Sam or Jean on 01253 691301 or email jeansam@virgin.net.

OVNI for the Jan/Feb months, the Journal of the Phenomena Research Association, has its usual vibrant yellow cover which encloses news of an increasing UFO activity in Nottinghamshire, some very interesting and dramatic photos of John Hanson's Rendlesham expedition and subsequent presentation on "The Great British UFO Show" on October 1st 2005. Mysterious Lights Seen Over Hucknall, Notts, 7th Jan 05. A flying triangle seen over Marlborough Wilts, 30th Sept. 05. An unearthly encounter in 1989 on the beach at Mablethorpe which left a couple shaken after an electric blue sphere flashing multi-coloured lights hovered over them after zipping towards them from a standing start over the sea. Unknown "apes" investigated by US NAVY "SEAL" unit between 1997 and 2002 in the Congo of which a classified video was taken, showing uniformly grey all over with "porcupine-like" quills....sound familiar? Part One of an article asking "Are aliens Amongst Us?" runs into several pages. While Walter Berg grips your interest in The Evening Sky on Page 13. The back page concludes it's always interesting section of items, such as the unusual orbit of an object discovered by astronomers working as a team in Canada, France, and the United States. Timothy Good informs his new book (AT LAST!) on "The NEED TO KNOW" will be published in July by Sidgewick and Jackson. A powerful explosion in the Moon's Sea Of Rains reported by NASA. A green light flashing circle over Birmingham on January 2nd and 4th reported. Bigfoot hunted in Malaysia following a sighting of three such, along with footprints and the usual BO smell!

OK....OVNI comes out at £2 + pp UK bi-monthly, from Omar Fowler, 94 The Circle, Sinfin, Derby, DE24 9HR, Tel; 01332 761464.. an excellent product with a very experienced editor.

UFO monthly .com for January sports a good plug for SUFOG with the website www.ufomonthly.com showing the front cover of our own incredible photographer "George" illustrating the Portsmouth Harbour UFOS...what else can they be? ....in all their weird glory...and there's more to come since they are still coming! My own account elsewhere. Very interesting articles within.. The Disney Connection....things you and I never knew! An obituary of Roswell's Walter Haut. Rendelsham Forest remembered after 25 years. Interview with ex Deputy Prime Minister of Canada Paul Hellyer who recently came out in full support of UFOs.. A review of some of the best images of UFOs on camera and video during 2005.. Portsmouth Harbour again! And a roundup of the best UFO NEWS from the world wide web. The latest sightings worldwide. No doubt editor Gary Heseletine is leading the way with concentration on "THE TRUTH.. is already here" as his UFO monthly.com says! Tel; 01924 864614 or 0779 757126 for all info. Subscribe FREE On www.interseti.com.

UFO magazine.. in big letters and a glossy production for Oct/Nov 2005...the second one sent to Steve from the USA with a promise we can "swap" articles and even an advert on a whole page. Lovely! I'm about to do my little bit on those Portsmouth Harbour sightings that has fallen into our arms, Bill and Ferne (at my place on the afternoon of the last meeting) took back some of those photo blowups for use at their USA UFO meetings and left me some stunning spooky UFO and ORBS DVD's...to be seen at our meetings. However.. UFO Magazine....here goes; contents include Publishers note, Editors note, Letters, Conference wrap up, Questions and Answers, Reviews (Zathura, Jason, my Indigo Child, The Fog, Hunt for the Skinwalker, Invisible Residents, UFO Crash in Brazil, Abducted) Features (An interview with Charles Ostman, As Above, so Below, An Occult translation of the Roswell event , The downfall of Coporal Veldes, The eyes of the Mothman) Well, you get the picture! $5.99 un the USA,$7.99 Canada. The adverts are worth that alone. Conferences the mind boggles at. The magazine delivered to your door! Our own Nick Redfern writes his own column. Oh, yes.. that DVD rental scheme has `hundreds` ..no late fees! Grrrr! Makes ya GREEN with envy? Nah! Just raise our sights a bit MORE! Eh?

PARANORMAL is a monthly glossy that arrived in my local shop a few months ago and started with a smallish section on UFOs. My own copy set off "coincidences" and I found people...some unknown to me!...feverishly looking for copies all over Southampton and I was able to increase the shop's copies to five immediately! Our editor, founder, chairman, etc Steve G. was one such grateful recipient! The ufological became almost non-existent until the Current January issue when it promised pages 26 to 28 had "Alien Invaders" by Hilary Porter had a `chilling and thought provoking Story, in print for the very first time. I looked very hard but not until a desperate search reached pages 40 t0 42 and there it was! Seems Hilary Porter had been employed at Marconi Space and Defence at Frimley, Surrey in the mid seventies and left after 11 years of abiding by the Official Secrets Act and now wished to inform us on the story of asset of strange incidents on reaching work one morning. The security guards were missing, a gate normally looked after by said guards was padlocked with a notice displayed "Strictly no admittance". Hilary eventually obtained entry, noticing a black MOD limousine in the car park... unusual. Personnel were gathered in small groups with worried faces and talking in whispers. Reading so far I vaguely recalled "something strange" at the complex from years ago. A top security guard on his night shift, with his dog, had seen a blue light in the high security documentation area and he unlocked a door and found a grey suited "alien" rifling through documents. The guard was shocked into a state sufficient to have to undergo psychiatric treatment and was never seen again at the establishment. Additionally, there had been UFO sightings in the area before this incident. Hilary had actually drawn one she encountered. Oddly.. or not!...one resembled the 1977 one I had over my Southampton home that had apparent "ribs" underneath... Hilary's had "pipes". Strange deaths..."suicides" had and have gone on at Marconi`s.. made the national papers etc. Strange accounts of the results of Marconi`s long observation of our sun. I actually knew someone who worked on the project. He knew about my UFO experiences but wouldn't talk much about the lunar project. There you go!

AWARENESS pocket magazine is the Journal of the Contact International UFO Research organisation, based in t he Oxford area or many years. In the past SUFOG has supported their Conferences.. I did an impromptu short talk there way back. Goeff Ambler is the editor and Vice President. The October 2005 Journal issue I one of four a year. Contents include Editorial, UFO's from East Anglia by John Copsey, From the Archives, Crop Circle report by Geoff Ambler, Paranormal Proof by yours truly, Letters to the Editor. Subs £9 for 4 issues, 14 for 8. From Box 23, Wheatley, Oxon, OX33IFL.

Incidentally ,I sent some of "George's photos to Geoff...his reply rather astounded me as he and his members agreed that first harbour photo of a cigar shaped object with black "globes looped around it was a `high winged light aircraft" and they further suggest we arranged the objects to be `more central" and nearer instead of miles away!` ALL are less than a quarter of a mile away! Maybe their sense of humour is beyond me!

(Cont... on Page 16...)

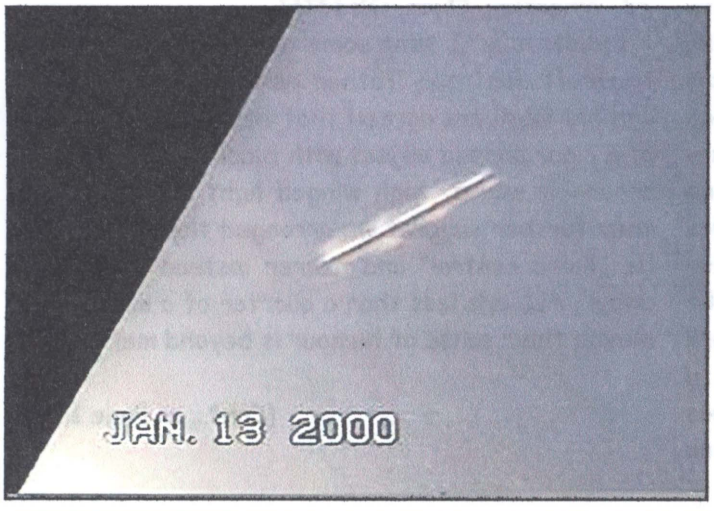
THE CLUB NEWSLETTER "the truth seeker" sounds like me... so here goes with the November issue of the SOUTHEND UFO and Paranormal Group... another SUFOG! Subtitles include Conspiracies, Disclosure Project, Alternative Fuels, etc. Good Front cover. Inside; The Leeds Conference, Ghost and Witches, Etc. Various local sightings. What will we do when ET finally shows up? They're coming. Are we ready when UFOs arrive? Plus; Archaeologists Discovery...UFO found on 17th Century French coin. In iceberg? Former Canadian Defence Minister speaks out on UFOs. Alleged entity photographed near Mexican Power Station. Topping up his mobile?

NOW! Since I cannot find and subscriptions detail in it, I'll add Mark Dalton's email address as he's the Southend group organiser. doultons@tiscali.co.uk

Mystery ROD's...

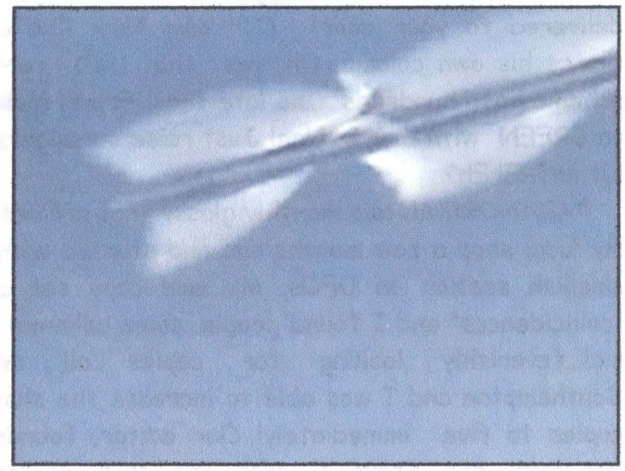
Many people have asked me over the past few months : What are the mysterious ROD's that we keep reading about? Well, to be honest I don't know. I have produced three pictures of these mysterious 'Things'... To me, they look like some unknown insect or animal that has up until the late 1990's remained a very elusive 'Creature'. They seem to be a phenomena that appears to happen in America and I am not aware of many other reported sightings in any other part of the world... But I am probably wrong on this!

If you look at these images, there seems to be a solid body to them, with a very thin rippling 'wing' going down both sides of the body and seem to be what provides the actual movement through the air just like a birds wing. So, is this some kind of creature that has laid dormant for many hundreds or thousands of years or has it developed from something else?



At the March group meeting, I will be showing a 45 minute DVD that will hopefully enlighten those of you that are craving for more information on this subject. The DVD covers all aspects of these strange 'Creatures' and will hopefully answer some of your questions.

These images were taken in 1999 and 2000 and were captured in America. One of the most famous images are of



parachutists jumping into a cave, freefalling and then opening their parachutes. Suddenly, you see these ROD's shooting across the camera and what appears to be birds chasing them and trying to catch them... But the ROD seems to be much faster and makes some remarkable maneuvers, that saves it from being eaten by the chasing bird. Visit the following Website for more information...

World News & UFO Reports...

Source: Free New Mexican - Santa Fe, New Mexico... December 18, 2005...

Lt. Walter Haut, Spokesman Who Announced Wreckage Of Flying Saucer In Roswell, Died At 83..

By Associated Press... ALBUQUERQUE - The man made famous for issuing a news release that said a flying saucer landed in Roswell has died.

Army Lt. Walter Haut, a former spokesman for the Roswell Army Air Field, died Thursday in Roswell, his daughter, Julie Shuster, said. He was 83.

Haut listened closely on July 8, 1947 as base commander Col. William Blanchard dictated a news release about a recovered flying saucer and ordered Haut to issue it. The Roswell Daily Record newspaper ran a bold headline July 9, 1947: "RAAF Captures Flying Saucer on Ranch in Roswell Region." The same day, a statement was released saying it was only a weather balloon. "I guess they changed their mind," Haut told The Associated Press in 1997.

Haut said he never was told exactly where the flying disc reported in his news release was found nor did he, himself, ever see a UFO. But he remained a believer.

"There must have been something in the skies at that time," he said. "There's just too much evidence."

Haut and two other men founded The International UFO Museum in 1991 where he was president until 1996. More than 2 1/2 million people have visited the museum since it opened in 1992, Shuster said.

It wasn't until the late 1980s that Shuster said she and her sister learned about the flying saucer incident, not from their father but from a book.

"It was not a topic of conversation at the dinner table for anybody involved," she said. Haut, born June 3, 1922, in Chicago is survived by his two daughters, Shuster and Marabeth Fields of Roswell, three grandchildren & four great-grandchildren.

A viewing is scheduled Monday in Roswell at the LaGrone Funeral Home. Funeral services are set for 11 a.m. Tuesday at Trinity United Methodist.

Infobae.com and Planeta UFO Date: 3rd January 2006...

Argentina: Careful, There's A UFO On The Road...

A bus travelling from Cordoba to San Luis was forced to stop due to the presence of a flying saucer on the road. A passenger says everyone got out to take a look at the phenomenon

A woman claimed having seen a UFO last Friday on the route linking the province of Cordoba with San Luis, while she travelled as a passenger in a microbus belonging to the Andesmar Company.

The passenger said that during the night, the bus stopped on the road facing an enormous light and that other passengers and drivers got out of the vehicle to witness the event.

"The time was 21:45 and the bus suddenly stopped. Upon looking down the aisle, I noticed a huge light in the middle of the road. I immediately jumped out of my seat and saw something that I will never forget: a

cone-shaped light in the middle of the road," the passenger told the El Liberal newspaper.

Later on, the woman said that she felt herself overcome by a sensation of peace and curiosity, to the extent that she began taking photos of the object with her digital camera.

"Suddenly, the object was enveloped in a bluish-white light and started to spin like a top and rise straight up, lighting the landscape like daytime. In the measure that it ascended, it issued coloured lights in intense phosphorescent shades. It suddenly disappeared to become a glowing dot. I immediately began perceiving an odour of heated metal that blended with a very particular smell resembling sulphur," remarked the traveller.

6th December 2005
Chinese City To Build
UFO Research Centre.

GUIYANG, China, Dec. 6 (UPI) -- A Taiwanese company has put up $20 million to build a UFO research base in China's southern province of Guizhou, where aliens are said to have visited in 1994.

Residents of Baiyun district in Guiyang, the provincial capital, hope the institute will look into the odd phenomena they experienced Nov. 30, 1994, Xinhua reported Tuesday.

On that date, nearly 70 acres of pine trees on a tree farm mysteriously fell down, while nearby plastic shelters remained intact.

A truck factory reported steel pipes strangely broken, a huge truck moved more than 20 yards, and a night shift employee pulled into the air by an "unknown force."

Local residents attributed the odd occurrences to UFOs, but scientists sent to investigate blamed them on thunder, lightning and tornados.

Wang Fangchen, a biologist who visited the site shortly after the reported events, called the UFO research plan "ridiculous," but said he would not oppose it if it would attract tourists to the city.

Zhou Xiaoqiang, secretary general of the Beijing UFO Research Association, said people often mistake planes, clouds, insects and shadows for UFOs. "If aliens really came, they would more likely appear before our eyes politely than hide themselves," he said.

China Strange Craft Causes Near Miss...

Bohai Sea -- Recently, China's CCTV reported that six Chinese Air Force pilots of the Flight Performance Teams witnessed a large unidentified aircraft formation flying toward them resulting in a near mid-air collision. Air traffic control radar systems were unable to observe and/or record the unidentified formation. On the CCTV program "Approaching Science", Feng Yi, deputy team lead of the Chinese Air Force Flight Performance Team, a top level pilot with 3,000 hours of flying experience, talked about this unusual experience.

Feng and his team were conducting the performance training over the Bohai Sea. At 9 a.m., the flight team reached an altitude of 21,000 feet. Suddenly a large unidentified formation of planes appeared just about 30 miles left to them flying from southeast to northwest. Feng

reported this observation immediately to the Air Traffic Control Centre and requested them to conduct a search, but no other airplanes were reported on radar. Feng's team mates have also seen the same aircraft formations.

The airplanes both he and his team have seen, all represented different countries from different periods of history. Propeller types as well as jets had been included in the formations. It is highly unlikely that all of the pilots had the same illusion at the same time. Some experts believe perhaps it was a scene from another dimension or even another time.

China has the largest Air Force in the world with over 6,000 planes.

The Harborough Mail - Lincolnshire... 27 January 2006.

X-Files Revealed: MoD Has UFO Log...

Spooked residents have reported seeing mysterious UFOs in the skies above Harborough and Lutterworth, the Ministry of Defence has revealed.

A large black triangular aircraft with three bright lights was spotted above Harborough's skies at 2pm on Friday, January 9, 2004, according to MoD documents disclosed under the Freedom of Information Act (FoI).

The strange object was also said to have made a rumbling noise.

It is not the first time mysterious objects have been spotted in Harborough's heavens, but it is the first time the existence of such sightings being logged in Government files has come to light.

In 1996 and 1997 scores of people reported seeing strange objects in Harborough in nine separate incidents. About three years later, in 2000, there were three more reports of UFO sightings.

The MoD said a witness also spotted a UFO with flashing lights in Lutterworth on Monday, September 20, 2004.

UFO enthusiast Gary Anthony (40), of East Yorkshire, who submitted the initial FoI requests to the MoD, said: "In 95 per cent of cases UFO reports can be put down to a natural or explainable phenomenon. In other incidents, there seems to be no rational explanation. I am not saying it's alien spaceships or flying saucers but these people have obviously felt scared enough to report the incidents to the MoD."

Insp Mick Norman, of Harborough police, said: "People do occasionally report this type of incident to the police as a first port of call.

"Our response is very much dictated by what the individual thinks they have seen. "People can be confused sometimes when aircraft is heading in their direction because it can appear as if the lights are remaining static, when in fact they are moving very quickly."

ICBerkshire - UK... 9th February 2006
Beam Me Up, Bracknell - Those Pesky Aliens Are Back

They're back. Are the aliens trying to make contact with Bracknell again?

Just months after a sighting above Coppid Beech Hotel sparked off a series of UFO reports around the town, Bracknell is back at the centre of an alien alert.

This time it was residents in Priestwood who reckon last Wednesday they could have been targeted by unexpected visitors from another world.

Just after 9 am, residents in Moordale Road saw a jet black spherical object with four claws coming out of the bottom as it hovered in the sky.

Julie Kendall said that she saw a dark solid object hovering a small distance above the ground.

She said: "Everything was really quiet and because the sky was so white I could see it really clearly.

"I didn't think it was a UFO at first but I started counting off other things that it could be and it just couldn't have been anything else.

"I was gobsmacked - I would have had the same reaction if I had seen a flying pig as I just stood there stunned. It really was amazing."

And UFO spotting is becoming something of a family thing in the household - a year ago Julie's dad, Terry Walters, claimed that he was abducted by aliens.

At the time he reckoned they cured his bad back which had baffled even top medical professionals.

Julie told the Bracknell News: "I thought that they must have come back to get my dad. "It has made me think that they really are out there - seeing is believing."

Similar thoughts were also shared by a neighbour who described the scene: "At first I thought I was going crazy as it was so strange. But so many people were looking up at it so they must have been thinking the same as me."

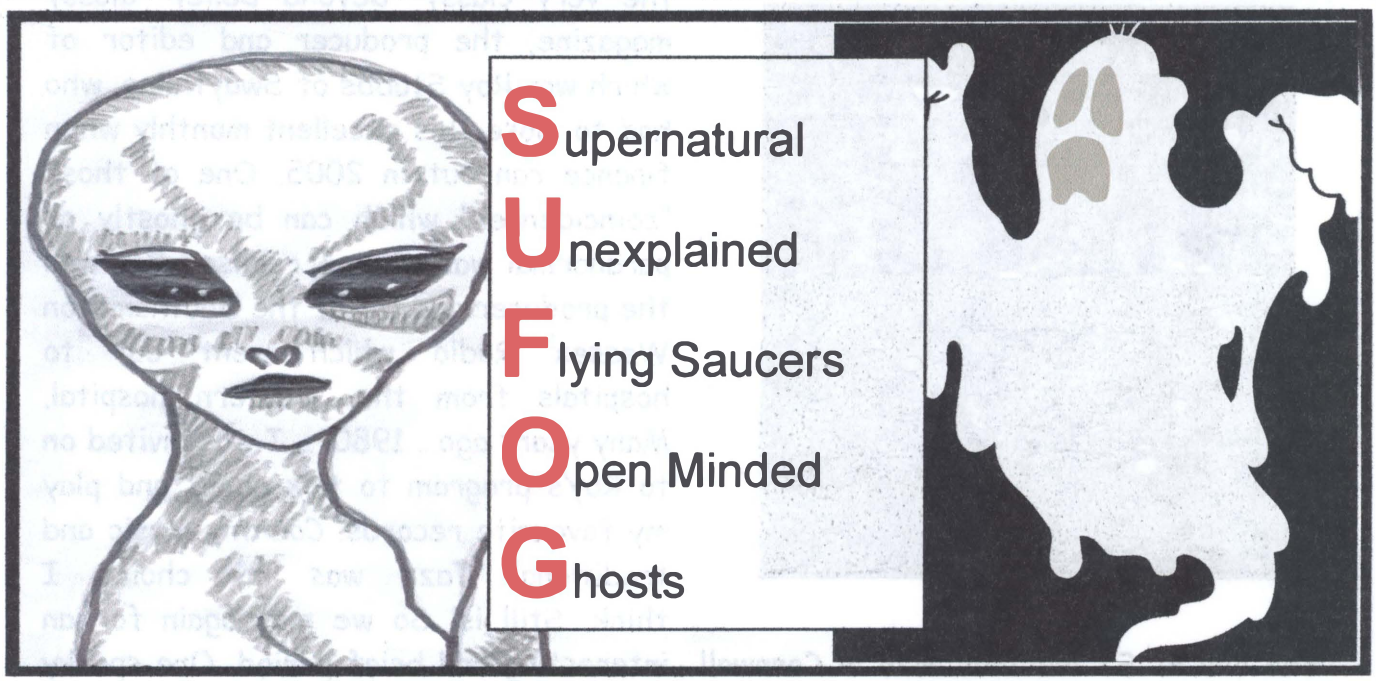
Minutes for the meeting December 2005 and January 2006.

This was the 2005 Christmas party and unfortunately it was poorly attended. BUT, those that did attend had a good evening of eating food, watching a very intriguing new DVD and having a good time.

No group news was discussed at the December meeting but we had our usual video and food and had a nice general chat and we all went home facing Christmas and the New Year with a bit of festive spirit inside us!

January saw the first meeting of 2006 and things did not go to plan. I spent a few minutes updating the group with regards to the number of members (41 as of December 2005) and also the new DVD Library that is going to be launched in the April edition of the magazine that will be available to ALL members. We were lucky enough to have Bill and Ferne on a flying visit back from America paid us a visit and Bill wanted to show us a new DVD. Unfortunately, due to the format of the DVD, we were unable to play it so we had to watch a different item instead. As usual we ended with a general discussion including George's photos and cleared away at 9.45 p.m.

THE PARANORMAL HAS ARRIVED IN SUFOG...



Close encounter of the hairy kind in Petersfield... March 2005...

The witness, Cameron Lawther was walking home after school when he heard a strange screeching sound that he first thought that it was some kids playing around from the opposite junior high school. However he looked around and the sound did not seem to be coming from the school. He then saw opposite to him on a mud bank a really weird monkey-like creature except that his skin was completely showing and it had bizarre large teeth, it looked like a fur-less monkey with really large fangs which were at least 2-2.5 inches long. Frightened, the witness slowly backed away along the path while the monkey-like creature kept staring at him with beady eyes. He ran home and told his parents. Source: Cryptozoology.com

---

Nice package of UFOLOGICAL, ORBS and SPOOKY STUFF from SUFOG members Ferne and Bill Coombes, who live in the USA for a large part of the year... Bill works there and is quite big in UFO research and investigations, hosting a café UFO open to "off the sidewalk" customers, is well known on radio and sky watches, much else. When in the UK they live at Christchurch in Dorset and it's their base for crop circle visits, Avebury etc, Along with sussing out allegedly haunted places... ruined castles etc ... and orb research. Ferne does most of the filming... did my lounge and outside area... we have a resident ghost here, an ex-nurse from the old Victorian Military hospital; in the adjacent Royal Victoria Country Park. SUFOG has had some real spooky close encounters here... UFO's too... anyway Ferne filmed Orbs in my lounge and over the roof in 2005... quite exciting!

The photos featured here are taken at the very spooky Chislehurst Caves in Surrey where lots of goings on ad hanky panky were ongoing in more ancient times. Reputed to host black magic cults. The misty atmosphere was very evident when Ferne and Bill had one of their excursions

there in 2005.

The one at ST Nectans Glen in Cornwall was where Bill tried singing to encourage the orbs to appear. They obviously did! You might see the fainter ones appearing in company with the very visible one Ferne is filming Bill is surrounded in another photo at the same place. And they have literally 'Dozens' of other pictures. Seems the ghostly phenomena 'Love flashing lights and music'!

The "UFO" type object in the below photograph appeared in 2004 while our two members were sky watching in a crop circle at Avebury Trusslow...

From my short lived connection with the very classy "Beyond Belief" glossy magazine, the producer and editor of which was Roy Stubbs of Swaythling, who had to close this excellent monthly when finance ran out in 2005. One of those "coincidences" which can be ghostly or paranormal was when I realised Roy was the producer and DJ of the Southampton Wessex Radio which went out to hospitals from the Western hospital. Many years ago... 1980?... I was invited on to Roy's program to talk about and play my favourite records. Country Music and traditional Jazz was my choice I think. Still is! So we met again for an interesting and brief period. One spooky story I recall from "Beyond Belief" was the chocolate birthday cake... sent in by Joanne Kelly of London. Her family had a tradition that meant every birthday of her father gained him a home made chocolate birthday cake. He lover every flavour cake but chocolate he hated! We always teased him just to annoy him but we knew he'd never eat it. I decided to still make him a cake even after he'd passed on but found, after the shops had shut, my larder only had chocolate mix! After cooking it I placed it on the kitchen top and left it to cool. Going into the lounge to talk to my daughter-in-law. We suddenly heard a terrible crash from the kitchen like glass breaking and ran in to find all well... nothing broken anywhere. I knew it was a friendly protest from my father! I explained it to my daughter-in-law and she said strange things had been happening all day. She had heard a plastic bag RATTLE and the chain on the lamp had swung backwards and forwards. Her baby sat smiling at something she

couldn't see. Her daughter-in-law enjoyed the cake, so did the baby. Somehow the daughter didn't fancy it!

Due to the lack of the paranormal, I have added the following 'UFO' related items...

My Right to Reply...
By Ernie Sears
(SUFOG Public Relations Officer)...

May I just make a few comments on a couple of items? One that might clarify Steve G's comments on the BBC SOUTH TODAY program that Davina and I were on the 29th November 05. In the SUFOG review by Steve on page 3 he condescended to grant the program 7 out of 10. 'A bit generous to say the least' he concluded.

OK... so they called me 'Ernie Spears'... I've been called various permutations of both my Christian name and surname many times... my sense of humour helps and countrywide incompetence too.

The group was called the Southern UFO Group. Steve speculated that anyone who was 'desperate to find the group would have to be willing to hunt for us'. I had SIX enquiries from as far apart as Wales, Dorset, Sussex and some more local, a gentleman from Poole has promised me a painting of a multi-lit spinning craft he and his wife saw over Fleet Service Station on the M3 two years ago. A lady from Sussex I've sent material too at her request for a membership form. Hardly a 'pointless program' as Steve said. Steve quoted 'beggars can't be choosers'... true, remember it Steve. I much prefer my old Mum's 'never look a gift horse in the mouth'. Maybe 'some of the filming was over the top'. Maybe you saw too much of me and Davina? I'm a good observer to human nature! At nearly 82 you learn. NOW, it's briefly take that program website you down loaded, thanks Steve for that. Your addition to it said much the same as usual. Backing off from confirmation again. 'Laser beams, military activity, and a lot of people looking at mundane objects and people minds are led by TV etc etc. You mention marks and scratches and allows it does happen. Of course. You concluded with a real humdinger when answering would we ever get conclusive proof that aliens have visited HAMPSHIRE! Well, maybe NOT face to face with YOU Steve. But don't please insult ME and many others. 'Cos you've seen and FILMED craft that would have had CREWS! (Sorry to not agree as I believe some may be remotely controlled.. Steve G).. It wouldn't be in YOUR lifetime you said (Yes, I still stand by this.. Steve G)... If they did you'd be surprised, you affirmed (Yes, again I would be surprised if we were ever told the REAL truth... Steve G) WELL! You are speaking at the Blackpool Probe International Conference in March 25th to 28th... one of several 'remarkable speakers' it says. Congrats, the program says you are from Southampton UK! How will "they" find us? (I was 'recommended' to the organisers of the conference by fellow researcher Malcolm Robinson who supplied them with my phone number... Steve G). It says you believe we are being visited by some form of Higher Intelligence. You have seen many unknown objects with one such 'a few hundred feet above your head' (true... During a SUFOG sky watch at Cheesefoot Head.. Steve G). Being 'nurtured' for some

reason as yet unknown (True.. Until it is safe for the real truth to be revealed by others.. Steve G) Come on Steve, how is it you haven't told ME, US about all that? (Has anyone really asked me?... I don't think so... And I remember in the past that you have said that there are things that you haven't told me... Steve G) Are you sure that the craft over your head wasn't that car wheel cover over Southampton Water? (See my previous comment in that object was seen at the time by other SUFOG members and not just me and no one at the time could explain the sighting... Steve G). The TRUTH. Note you are speaking at Blackpool whose advert says 'Truth is Freedom' ALL the foregoing is TRUE! You must SURELY agree? (That depends if we are truly free people and what is the real truth? Many have experienced UFOlogy up very close and others haven't and surely shouldn't one be a bit sceptical in this world... There's scepticism and then there's scepticism. I have seen many things that I cannot explain and heard many people tell me of their experiences and I have taken everything that I have been told, published and experienced onboard (Sorry for the pun here) BUT we must look at the evidence and examine it until we have reached all the boundaries... Surely I thought we are an open group and we take on EVERYBODYS views even though they may not agree with your own. If we don't, then why don't we pack up here and now?)... Maybe Ernie, Karl was right.. Does anyone out there want to take over!!! Steve G.

George's Photographs
BY Ernie Sears...

Having been closely associated with George since he joined SUFOG a year or more ago, supplying him with cuttings etc, and meeting up with him in 2005 and very recently this year ay his Gosport Hard photo site, I became aware of his earlier UFO sighting in 2000 while coming into Eastbourne on a ship early one morning and watching the lights of the town go out one by one as a massive dark object passed over heading out to sea. His skipper was also an unbelieving witness! George can also recall a couple of wartime and post war encounters when he manned an Observer Corps lookout post. Then there were those what he called 'weird' objects he kept seeing on his camera which he deleted until he mentioned it to me a year or so ago! Gawd! SEND 'EM to ME!

And so it began! Seemingly unexplainable and such, the behaviour of these objects reminds me of the ones from the seventies made into a book by Trevor James Constable of "THINGS" lived in the sky, brought up to date with those even more weird photos of apparent humans "floating" in the sky. George has come to believe what he is photographing are from either another dimension or a parallel world and to date I have to agree. I firmly believe, based on my own personal experiences over many years, there is a link between the beings I've met a few times, once, I believe, in company with a witness who flatly refuses to answer questions except on very rare occasions to me. I also believe, rightly or not, "they" are here to watch the dreadful situation we ourselves, with the help of various political masters, have got into worldwide. Greed and violence is

endemic. I read a book years ago, picked up at a jumble sale, by a noted scientist and much much more, (I have just gone over to one of my book cases and picked it up) "Man the Unknown", author Alexis Carrel, a Nobel prize winner in Medical Research to boot. His tract has been on my wall for many years; 'The purpose of civilisation is not the progress of science and machines, but the progress of man' (written in 1935) George and I met because it is the time for such. NOTHING is by "chance". These things George is photographing are not visible to the human eye. Like those six craft filmed over Mexico a few years ago by military aircraft, only radar and their film equipment could confirm that. In time, maybe, SUFOG, basically Steve G and myself etc, may lay our findings before the requisite authorities. Don't hold your breath... We won't!

Letter from a reader...

I've just been reading an article in the recent FSR magazine regarding a UFO that disappeared into a cloud and didn't re-appear (there was another article very similar). I believe when UFO's do that, they are being 'cloaked', so when you see disc-shaped clouds (there is a name for them)... (I think it is lenticular clouds... I may be wrong... Editor) they are just disguised UFO's. Earlier on this year I was doing my weekly shop and darting for a bus and doing a little sky watching until the bus arrived. There were a lot of white fluffy clouds slowly blowing one way across the heavens and a greyish looking disc-shaped cloud slowly going the other way? With the technology they employ, it wouldn't be difficult to 'cloak'. What do other readers think?

Late Magazine Review...

UPRI Newsletter - November 4 - 2005... As I had a bit of space left and an extra page to fill, I thought I would slip this one in at the last minute. Produced by UFO & Paranormal Research Ireland, this issue is packed with newspaper cuttings covering UFO's and the Paranormal. The Sunday Star on the 15th January, carried a headline 'UFO Baffles Locals'... It appears that an Unidentified Falling Object baffled the locals of South Wicklow in the afternoon of the 15th January.

The Department of Defence said that the falling 'Metal Object' had nothing to do with them. The local coastal unit said that it was very strange...

The other articles cover subject areas such as vampires, Jesus shroud re-test, castle proves to be the best haunt around , Alien earths could be out there... and much much more. A great read and with 18 pages to read through, a very hard magazine to put down.

If you want more details about this little gem, then contact the group via the following email :
UPRI@oceanfree.net...

I have included this extra page this issue as I had so much to put in and didn't want to leave anything out. Unfortunately I have had to leave one or two small items out but they will appear in the next issue.

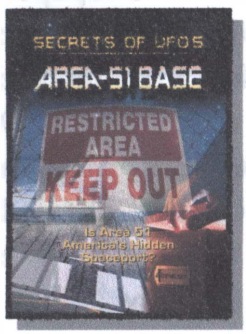
SECRETS OF UFOS

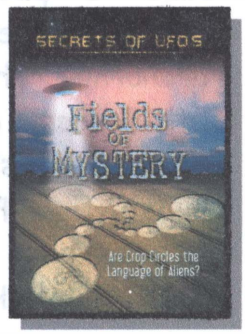
4-Single Disc Collector's Series

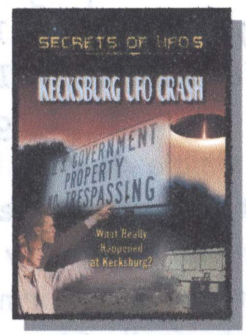
RUN TIME: Approx. 50 Minutes (each)

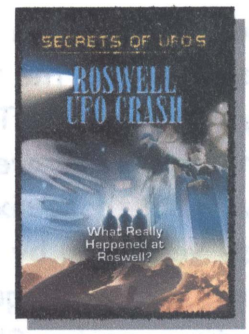
Price : $9.98 (each)

What really are the Secrets of UFO's? Are they hidden inside a Government conspiracy to cover up the truth? Are they just a figment of our imagination? Or are they something way beyond our wildest DREAMS? View the astounding evidence in this all new 4-disc DVD series SECRETS OF UFOS... and decide for yourself!









AREA 51 BASE: Is Area 51 America's Hidden Spaceport?
ROSWELL UFO CRASH: What Really Happened at Roswell?
KECKSBURG UFO CRASH: What Really Happened at Kecksburg?
FIELDS OF MYSTERY: Are Crop Circles the Language of Aliens?

Digitally Mastered Picture and Sound Digital Surround 5.1 Audio
NTSC Color Approximately 50 minutes each.

AREA 51 BASE: Is Area 51 America's Hidden Spaceport?
It's a mysterious complex of buildings and runways that has been photographed by U.S. and Russian satellites and documented on the cover of *Popular Science* magazine. Yet the U.S. Government says the Area 51 base does not even exist. From a secret gate at the Las Vegas airport, workers are flown daily to and from the base in aircraft with blacked-out windows. Airplanes are warned they'll be shot down if they fly over Area 51. Signs authorizing the use of deadly force surround the base to keep intruders away. Unmarked helicopters and hummers are on constant patrol. What are they guarding? A scientist who once worked there says Area 51 houses confiscated UFOs. Now, a visitor to the base says he actually examined an alien UFO engine there. Is Area 51 truly a spaceport for alien craft?

ROSWELL UFO CRASH: What Really Happened at Roswell?
What really did happen at Roswell, New Mexico, in July 1947? Did a UFO crash there? Were alien bodies recovered and autopsied? At last, we now know the answers. Colonel Philip Corso, who worked at the Pentagon in military intelligence for 30 years, provides explicit information about how the U.S. government came into possession of a crashed UFO and how every eyewitness was intimidated into denying it ever happened. Corso claims that he personally seeded alien technology into the American industrial complex. And, for the first time, you'll actually see debris from the crashed UFO and see text from a military cablegram initiating a crash cover-up with a phony weather balloon story. Witness the government cover-up story of the 20th century.

KECKSBURG UFO CRASH: What Really Happened at Kecksburg?
On December 9, 1965, hundreds of witnesses saw an object crash in the woods near the small Pennsylvania town of Kecksburg. The official government report said the object was simply a meteorite. But eyewitnesses to the event disagree. Some say they saw the object change direction and emit a vapor trail before crashing. Others claim to have seen the object up close. They describe it as a copper-colored, acorn-shaped object with strange writing on it. Whatever crashed in Kecksburg, it quickly drew the attention of the U.S. military. They reportedly recovered the object, loaded it onto a flatbed truck and took it to Wright Patterson Air Force Base. What was it that caused the military to respond so quickly? What do they know that we don't?

FIELDS OF MYSTERY: Are Crop Circles the Language of Aliens?
For decades, mankind has witnessed the mystery of crop circles – the often beautiful but always baffling markings that appear in fields the world over. Previously dismissed by skeptics as the work of clever hoaxers, crop circles are now the focus of increasing scientific investigation. How can complicated crop circle designs appear in just minutes, often in complete darkness? Why does the crop undergo changes at the cellular level? What about the strange lights which appear over the fields where crop circles are found? Are crop circles the product of new military technology? Or are they messages from an intelligent force, perhaps an alien civilization? Experience a powerful eyewitness account of a crop circle being formed. What are crop circles trying to tell us?
